

# MEDI-KOOL SALINE UNIT

MEDI-KOOL SALINE UNIT  
MK Saline

The MK SALINE was developed to supply a low cost, smaller and effective way to store saline for Hypothermia-Inducement. This unit is designed to to operate at 38 degrees (4 c) and comes with a thermostat that's been preset at the factory. The MK SALINE temperature can be adjusted for various temperatures if other products other than saline are going to be stored in this cabinet. This unit comes with a 3 year factory serviced warranty that's

unmatched by anyone in the industry.
