

# MEDI-KOOL 1.5 UNIT

MEDI-KOOL 1.5 UNIT  
MK15

The Medi-Kool "MK15" unit is ideal for ALS cabinet installations. Constructed out of polished stainless steel with an aluminum body, this climate controlled Rx cabinet is an ideal addition to any ambulance, fire truck, or emergency response vehicle.

The Mermaid Medi-Kool "MK15" is designed specifically to work on the truck's 12-volt power supply. The Medi-Kool products are computer controlled climate devices that not only regulate the inside temperature, they also store the data for your records! The MK15 will cool AND heat your cabinet to the desired set temperature. Manufactured out of polished stainless steel and aluminum, this unit is not only attractive, but durable! For Rx security, each unit is manufactured with a stainless steel lock. The MK15 uses R-134a refrigerant. The compressor is located on the back of the unit or now, off to the left as an option well!. Refer to "additional pictures" in the drop down menu.

Products available through your Manufacturer or from Mermaid directly!

**As stated above, the standard unit will Cool and Heat. Should you require REFRIGERATION ONLY, let us know.**
