

# MEDI-KOOL PELICAN SS

MEDI-KOOL PELICAN SS  
MK Pelican

The MK Pelican is one of our largest units.

Compressor can be mounted on the rear, right, left or top. The hinge can be located on the left or right. A single adjustable vented shelf is included! An additional shelf is optional.

This picture shows the MK Pelican installed (back right hand side).

This unit reduces temperature 25-30 degrees off ambient (not the standard 40 degrees as with the rest of our products).

**MK Pelican uses the BD50 Danfoss Compressor**
